

Abstract Submission Instructions 2024

The 7th TERMIS World Congress will feature an outstanding scientific program bringing together national and international scientists, clinicians, industry leaders, post-doctoral fellows, graduate students, entrepreneurs, and representatives of government funded agencies engaged in the fields of tissue engineering and regenerative medicine.

Please note, there is no fee or charge to submit an abstract.

Abstract Consideration

Experts from academia, industry and government are invited to present timely research to successful implementation of technologies in all areas of tissue engineering/regenerative medicine.

Note: All abstract submitters including presenting authors are expected to pay their own travel expenses and conference registration fee(s).

SUBMISSION INSTRUCTIONS

Abstract Preparation

Authors must submit their abstract electronically. This is the ONLY option for abstract submission.

Title: Title should be brief, clearly indicating the nature of the presentation. Title should be in bold font and mixed case font followed by a single return. Do not put a period at the end of the title.

Example: **This is a Properly Formatted Abstract Title**

Category: Please select the category that aligns with your submission.

Categories: Please note sessions are slotted based on the number of quality abstracts submitted.

Click [HERE](#) to see a full list of the abstract categories.

Authors: Complete contact information (name, mailing address, and e-mail) for each author listed on the abstract must be entered before submitting the abstract file. Please enter information in the fields provided and the system will format it for you automatically. This information will be separate from your abstract body.

Disclosure Information: Submitting disclosures is a step when entering abstract authors. It will be the same step under each individual speaker. In order for your colleagues to properly evaluate the information, analysis and opinions presented in your abstract, it is important that they be informed of potential conflicts of interest pertinent to the research submitted. Therefore, conference management requires that all authors provide any relevant information concerning personal or professional circumstances and relationships that might reasonably be expected to affect the author's view on the subject. Examples include, but are not limited to:

- Stock options or bond holdings in a for-profit corporation or self-directed pension plan
- Employment (full or part-time)
- Ownership or partnership
- Consulting fees or other remuneration (payment)
- Non-remunerative positions of influence such as officer, board member, trustee, or public spokesperson
- Receipt of royalties
- Speakers bureau

Appropriate disclosure will be stated in the scientific program and the abstract volume. If you do not have anything to disclose, you must indicate this on the online abstract submission form. The disclosure information you provide will not influence the review of your abstract. Abstracts will not be reviewed without proper completion of the disclosure section on the abstract submission form. Disclosure information for all authors is required upon abstract completion.

Abstract: The abstract should clearly describe the nature of the research and the *problem* it addresses and be presented in such language as to be understood by scientists representing the multi-disciplinary nature of tissue engineering. The abstract should summarize the *purpose/objective* of the research, the *methodology* employed, the results, and the *conclusion/significance* and will be split into these four categories.

- The abstract length is limited to **500 words** total across all four sections. These areas should not include authors, disclosures, or references.
- The abstract can include 1 figure.
- References and acknowledgements are not needed in this abstract process.

Presentation Preference: Please choose your preferred method of presentation (**Oral, Poster, or Oral or Poster**) where indicated. Your preference will be noted by the reviewers. Final determination will be made by the Program Planning Committee.

Publication: Abstracts this year will be published on the 7th TERMIS World Congress website or in the journal. Here you can choose to opt-out of publication.

Demographics: Please fill out your demographic information if you feel comfortable. These questions help us promote diversity within our abstract presenters. You can select if you are a Student or Young Investigator here.

Review My Work: If you see a green check mark, all steps have been completed. If you do not see a green check mark, please go back and make corrections. Your submission is not complete unless you see a green check mark. **You can make edits to your abstract until the deadline of January 15, 2024, 11:59 PM Pacific Time. Once the abstract deadline has passed, no further edits can or will be made to an abstract.**

Abstract Withdrawals

If the abstract must be withdrawn, the TERMIS World Congress staff must be notified in writing at least ONE month prior to the meeting via e-mail at amconf@termis.org. If withdrawn within two months of the meeting, the abstract can not be removed from the TERMIS publication.

NOTE: ALL PRESENTERS ARE EXPECTED TO COVER THEIR OWN TRAVEL AND LODGING EXPENSES AND PAY THE CONFERENCE REGISTRATION FEES.

Registration Requirements

Accepted authors are expected to pay their own travel expenses and conference registration fee(s). Dates of presentation cannot be requested.

For More Information
